

IXL Math Summer Assignment
for Students Entering the Fifth Grade
2022-2023
Due: The Second Day of School

What is IXL:

IXL is an online practice program for Math. The program will allow us to individualize the learning experience for students so that they can work at their own pace to reinforce the essential content necessary for the upcoming school year.

How to sign in: Your child can sign in from home by visiting www.IXL.com on any computer and entering the username and password provided in class. There are even iPad and Android apps to allow your child to practice on the go.

Assignments: The following are the assignments to be completed with a minimum smart score of 80. The Smart Score considers not only the number of questions a student has answered correctly and incorrectly, but also the difficulty of the problems and the student's ability to answer correctly with consistency. IXL objectives completed during the 2021-2022 school year will be deleted in June.

The Summer Math Assignments can be found under the current learning tab for **4th Grade**. Students are expected to spend a **MINIMUM** of **10 hours** practicing and strengthening the concepts learned this year. Of course, students are certainly encouraged to exceed the minimum 10-hour requirement!

Upcoming 5th Graders must work in **EACH** of the following categories for at least an hour: A- Number Sense; C- Subtraction; D- Multiplication; E- Division; M- Units of Measurement; O- Fractions; P- Adding & Subtracting Fractions/ Equivalent Fractions; R- Multiply Fractions; S: Decimals; W- Triangles & Quadrilaterals. Students should be encouraged to spend more time in the areas in which they are struggling. In addition, students will benefit from completing any IXL Recommended Skills.

Please remember, all existing students must complete this IXL Assignment in the Fourth Grade Tab. **Please DO NOT move into the Fifth Grade Tab.** Only new students will complete a Written Assignment. **WRITTEN ASSIGNMENTS WILL NOT BE ACCEPTED FROM EXISTING STUDENTS.**

Mrs. Haynes

Keep in mind Reading and Math are skills, and like any other skills, the more you practice, the better at it you become!
